Independent Auditor's Report

To the Board of Directors
Catholic Foundation of Michigan

Opinion

We have audited the financial statements of the Catholic Foundation of Michigan (the "Foundation"), which comprise the statement of financial position as of December 31, 2021 and 2020 and the related statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as of December 31, 2021 and 2020 and the changes in its net assets, functional expenses, and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Foundation and to meet our ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

To the Board of Directors
Catholic Foundation of Michigan

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Plante & Moran, PLLC

Cash and Cash Equivalents - End of year	\$ 1,392,367	\$ 542,389

December 31, 2021 and 2020

Note 1 - Nature of Operations

The Catholic Foundation of Michigan (the "Foundation") inspires charitable giving and assists donors in providing for the long-term needs of the Catholic parishes, schools, ministries, and nonprofit organizations in southeast Michigan.

Gifts received by the Foundation can be specially identified by donors for specific uses, or they can go to one of the Foundation's Field of Interest Funds:

Catholic Education and Formation

Encompasses all types of faith formation for people of every age. The Foundation supports all stages of educational and spiritual development to enhance vibrant discipleship.

Parish Life

Funds to benefit Catholic parishes in Michigan with resources and opportunities to build and sustain vibrant community life.

Social Outreach

Addresses vital social services needs, such as food, shelter, medicine for the sick, and hope for those in despair and those who are vulnerable within our community.

Donor Advised

Resources for which the donors are active participants in the giving process, sharing their insights and preferences with the Foundation's trustees as fund distributions are made.

Some donors direct gifts to fund operations of the Foundation.

Note 2 - Significant Accounting Policies

Cash Equivalents

The Foundation considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Contributions

Unconditional promises to give cash and other assets to the Foundation are reported at fair value on the date the gift becomes unconditional or irrevocable. Conditional promises to give and indications of intentions to give are reported at fair value on the date the gift becomes unconditional or irrevocable. The gifts are reported as donor-restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in the year in which they are received are reported as contributions without donor restrictions in the accompanying financial statements.

Contributions of marketable securities are recorded at fair value as of the date of the gift. It is the Foundation's practice to determine appropriate disposition of such gifts of securities at the time of receipt.

Agency Transactions

The Foundation has adopted established standards for transactions in which the Foundation accepts a contribution (gift) from a donor and agrees to transfer those assets, the return on the investment of those assets, or both to another entity that is specified by the donor. The Foundation refers to these types of resources as assets held for others on the statement of financial position.

Note 2 - Significant Accounting Policies (Continued)

In-kind Contributions

Contributed services that create or enhance nonfinancial assets or that require special skills are recorded at their fair values in the period received. For the years ended December 31, 2021 and 2020, contributed services consisted primarily of legal consultation and totaled approximately \$55,000 and \$35,000, respectively.

Sent on Mission

The Sent on Mission revenue is recognized when it is realized or realizable and earned. The Foundation considers revenue realized or realizable when it has persuasive evidence of an agreement, the services have been delivered, and collectibility is reasonably assured. Amounts due to the Foundation for services performed are recorded as accounts receivable. The Sent on Mission agreement is further described in Note 7.

Grants

Grants are recorded as expense in the year in which they are approved for payment by the authorized foundation personnel, as empowered by the board.

Functional Allocation of Expenses

The Foundation allocates expenses on a functional basis to program and support services. Expenses that can be identified with a specific program and support service are allocated directly according to their natural expenditure classification. Certain expenses, such as administration and occupancy, are allocated based on an analysis of current time and effort estimates. Although allocation methods used are considered reasonable, other methods could be used that would produce different results.

Fair Value Disclosures

The estimated fair value amounts have been determined by the Foundation using available market information and appropriate valuation methodologies. These estimates are subjective in nature and involve uncertainties and matters of considerable judgment. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Foundation could realize in a current market exchange. The use of different assumptions, judgments, and/or estimation methodologies may have a material effect on the estimated fair value amounts.

Risk and Uncertainties

The Foundation invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of financial position.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

The Foundation is exempt from federal income taxes under Section 501(c)(3) of the United States Internal Revenue Code; therefore, no provision for income taxes has been included in the financial statements.

Note 2 - Significant Accounting Policies (Continued)

Classification of Net Assets

Net assets of the Foundation are classified based on the presence or absence of donor-imposed restrictions.

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions or for which the donor-imposed restrictions have expired or been fulfilled. Net assets in this category may be expended for any purpose in performing the primary objectives of the Foundation.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Foundation or by the passage of time. Other donor restrictions are perpetual in nature, where the donor has stipulated the funds be maintained in perpetuity. There currently are no net assets with donor restrictions.

Upcoming Accounting Pronouncement

In September 2020, the FASB issued ASU No. 2020-07, *Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. The ASU provides for additional disclosures to support clearer financial information about important noncash contributions charities and other not-for-profit organizations receive, known as gifts in kind (GIKs). Contributed nonfinancial assets will be reported by category within the financial statements, and there will be additional disclosures included for each category including whether the nonfinancial assets were monetized or used during the reporting period, the policy for monetizing nonfinancial contributions, and description of the fair value techniques used to arrive at a fair value measurement. The new guidance will be effective for the Foundation's year ending December 31, 2022 and will be applied using the retrospective method.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including July 21, 2022, which is the date the financial statements were available to be issued.

Subsequent to year end, the Foundation's investment portfolio has incurred a decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined.

Note 3 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Foundation's assets measured at fair value on a recurring basis at December 31, 2021 and 2020 and the valuation techniques used by the Foundation to determine those fair values.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Foundation has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs, such as interest rates and yield curves, that are observable at commonly quoted intervals. The Foundation holds preferred stock determined to be a Level 2 investment, which is valued using the aforementioned methods.

December 31, 2021 and 2020

Note 3 - Fair Value Measurements (Continued)

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management’s own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. The Foundation does not have any Level 3 investments.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Foundation’s assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2021			
	Quoted Prices in		
	Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Balance at December 31, 2021

December 31, 2021 and 2020

Note 4 - Liquidity and Availability of Financial Resources

The following reflects the Foundation's financial assets as of December 31, 2021 and 2020, reduced by amounts not available for general use, that is, without donor or other restrictions limiting their use, within one year of the statement of financial position date:

	<u>2021</u>	<u>2020</u>
Cash and cash equivalents	\$ 1,392,367	\$ 542,389
Investments	<u>28,565,995</u>	<u>18,841,093</u>
Financial assets - At year end	29,958,362	19,383,482
Less those unavailable for general expenditures within one year - Assets held for others	<u>14,585,914</u>	<u>12,643,756</u>
Financial assets available to meet cash needs for general expenditures within one year	<u>\$ 15,372,448</u>	<u>\$ 6,739,726</u>

The financial assets available within one year of the statement of financial position date, as totaled above, include \$11,982,742 and \$4,581,203 in donor-advised and other designated funds as of December 31, 2021 and 2020, respectively. The Foundation generally uses these assets for grant-making based on donor recommendations.

The Foundation considers investment income, contributions without donor restrictions, and contributions with donor restrictions for use in current programs that are ongoing, major, and central to its annual operations to be available to meet cash needs for general expenditures. General expenditures include administrative and general expenses, fundraising expenses, and grant commitments expected to be paid in the subsequent year. Annual operations are defined as activities occurring during the Foundation's fiscal year.

The Foundation manages its cash available to meet general expenditures in accordance with the following three guiding principles:

- Operate within a prudent range of financial soundness and stability
- Maintain adequate liquid assets
- Maintain sufficient reserves to provide reasonable assurance that long-term grant commitments and obligations that support mission fulfillment will continue to be met, ensuring the sustainability of the Foundation

The Foundation's grant committee (the "Committee") meets, minimally, quarterly to review and approve grant requests. Due to this timing, the Foundation strives to maintain financial assets available to meet general expenditures at a level that represents 100 percent of annual expenses for administrative, general, and fundraising expenses, plus an amount that represents the next expected payment for quarterly grant commitments approved by the Committee, which typically represents approximately 25 percent of the expected annual grant cash needs.

Note 5 - Related Party Transactions

The Foundation's governance structure is made up of its board of directors. The Foundation received contributions and in-kind legal services (see Note 2) of approximately \$854,000 and \$448,000 from board members for the years ended December 31, 2021 and 2020, respectively.

Note 6 - Multiple-employer Defined Benefit Pension Plan

The Foundation participates in the Michigan Catholic Conference Lay Employees' Retirement Plan (the "Plan"), a multiple-employer defined benefit pension plan. The plan number and plan employer ID number are both 38-1971920.

The financial risks of participating in a multiple-employer plan are different from single-employer defined benefit pension plans in the following respects:

- Assets contributed to the multiple-employer plan by one employer may be used to provide benefits to employees of other participating employers.
- If a participating employer discontinues contributions to a plan, the unfunded obligations of the plan may be borne by the remaining participating employers.
- If a participating employer chooses to stop participating in a plan, a withdrawal liability may be created based on the unfunded vested benefits for all employees in the plan.

For the years ended December 31, 2021 and 2020, the Foundation's contributions to the Plan totaled approximately \$30,000 and \$28,900, respectively. Based on information as of June 30, 2021 and 2020, the year end of the Plan, the Foundation's contributions do not represent more than 5 percent of total contributions received by the Plan. The following information is based on the financial statements of the entire Plan as of June 30, 2021 and 2020:

	2021	2020
Total plan assets	\$ 1,507,700,000	\$ 1,264,400,000
Actuarial present value of accumulated plan benefits	\$ 1,487,000,000	\$ 1,464,000,000
Total contributions received by the Plan	\$ 26,412,000	\$ 27,806,000
Indicated level of funding	101.40 %	86.40 %

Note 7 - Sent on Mission

During 2019, the Foundation entered into an agreement with the Archdiocese of Detroit (the "Archdiocese") to assist with the Sent on Mission Campaign (the "Campaign") launched by the Archdiocese. The Archdiocese contracted with the Foundation to create project funds, receive and deposit donor contributions, and distribute funds for the Archdiocese and participating parishes. As part of the agreement, the Archdiocese agreed to pay the Foundation for services performed, which consisted of an origination fee, a cost-plus fee, and reimbursement of specific services.

In May 2020, the Archdiocese suspended fundraising for the Campaign due to COVID-19-related interruptions and, in September 2020, terminated the Campaign. The Archdiocese determined there would be no additional fundraising for the Campaign, and all campaign funds collected by the Foundation to date would either be distributed to the Archdiocese or moved to endowments with the Foundation. The final dispersal of funds was made in October 2020, and final reporting was completed in January 2021. The Archdiocese agreed to pay to the Foundation approved fees and direct expenses through December 31, 2020. The Foundation recorded total revenue of \$390,423 from Sent on Mission for the year ended December 31, 2020.

December 31, 2021 and 2020

Note 8 - Paycheck Protection Program Loan Payable

During the year ended December 31, 2020, the Foundation received a Paycheck Protection Program (PPP) loan in the amount of \$55,094. The PPP loan program was created under the Coronavirus Aid, Relief, and Economic Security (CARES) Act and is administered by the Small Business Administration (SBA). Under the terms of this program, the loan may be fully or partially forgiven if the loan proceeds are spent on qualifying expenses and if staffing level and salary maintenance requirements are met. At December 31, 2020, the outstanding balance on the PPP loan was \$55,094, which is classified as a loan payable on the statement of financial position.

During the year ended December 31, 2021, the Foundation received a second PPP loan in the amount of \$86,245. This Second Draw PPP was created under the Economic Aid to Hard-Hit Small Businesses, Nonprofits, and Venues Act (the "Economic Aid Act"), which was included as part of the Consolidated Appropriations Act of 2021. Second Draw PPP loans are generally administered by the SBA under similar terms, conditions, and processes as First Draw PPP loans.

During 2021, the Foundation applied for and received notifications from the SBA of partial forgiveness of the first loan of \$50,749 and full forgiveness of the second loan of \$86,245. The Foundation recognized a gain on debt forgiveness of \$136,994 on the statement of activities and changes in net assets. There was no loan payable outstanding at December 31, 2021.
